

A message from Emerald City Comic Con

Emerald City Comic Con wants to express our concern for everyone impacted by the COVID-19 virus in the State of Washington and around the World. We are proactively monitoring the situation as State agencies take proactive measures to ensure health and safety and prepare for and respond to the COVID-19 virus in the State. As always, the well-being of our global ReedPOP community, from our attendees and exhibitors to our staff on-site at every show, is of the utmost importance to ReedPOP and we take pride in creating a positive environment to celebrate comics, cosplay and pop culture.

ECCC 2020 will take place as scheduled [March 12th-15th](#) at the Washington State Convention Center (WSCC) in downtown Seattle. We have implemented enhanced cleaning and sanitization across the show, including adhering to the recommendations set forth in the U.S. EPA's Emerging Pathogen Policy regarding cleaning disinfectants effective against the COVID-19 virus. We are working closely with the WSCC and our other venue partners and aligning with local, state and federal public health guidelines and agencies. As ECCC approaches we will be constantly reviewing our health protection activities, public health messaging, hygiene and medical control measures with the aim of strengthening our COVID-19 response further in line with up to date public health advice and guidance, including that of the [CDC](#).

For more information about COVID-19 and response of the WSCC, the State of Washington and the city of Seattle, please refer to the following:
